

Great! I'd like about 500 grams please.

For the machine to work, it needs suction - so if you don't mind - take the hose.

SQUELSH!

That's looking good!

WAIT.

What was that pipe connected to?

Why, my pet troll of course

WHAT?

I JUST PUT TROLL FAT IN MY MOUTH

Ahaha tube!

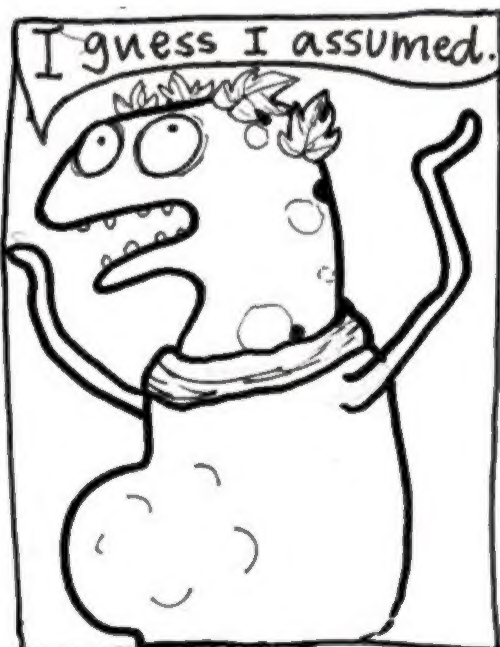

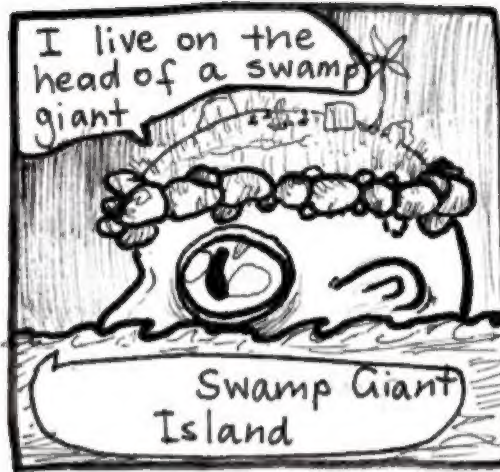

The dirt will aid me!

Umm... That's not dirt.

YES, my long limber friend, it's poop. Rabbits eat their own poop for extra nutrients. They hide it in cabbages to allow it to simmer, giving it is creamy zest flavour.
